PROJECTS

MyntraDemo – E-Commerce Web Application - [Link](#)

April 2026 - May 2026

Full-Stack Java Web Project at Tap Academy

- Developed a Myntra-style **e-commerce web application** using **Java**, **JSP**, **Servlets**, and **MySQL**
- Implemented **6 core shopping modules**: session-based user authentication, product listing, product details, cart, checkout, and order management
- Built **3 database-driven flows** for products, cart, and orders using **JDBC**, **MySQL**, servlet sessions, and dynamic JSP pages
- Applied **problem-solving** and **attention to detail** to improve navigation, product data handling, and user-friendly shopping flow

Personal Portfolio Website – Developer Portfolio - [Link](#)

May 2026

Personal Web Portfolio Project

- Built a professional **developer portfolio** to present profile details, projects, resume, and contact information in one recruiter-friendly platform
- Developed a responsive frontend using **HTML**, **CSS**, and **JavaScript** with structured layout, smooth navigation, and clear visual communication
- Organized the website into **7 focused sections**: hero introduction, profile summary, skills, experience, projects, resume access, and contact

WORK EXPERIENCE

Java Full Stack Development Intern

Feb 2026 - May 2026

Tap Edtech Pvt Ltd

- Completed a **3-month Java Full Stack Development** internship with practical exposure to building database-driven web applications
- Worked across **8 technologies**: Java, JDBC, JSP, Servlets, MySQL, HTML, CSS, and JavaScript to develop dynamic web modules
- Practiced **6 development activities**: MVC architecture, CRUD operations, SQL queries, form handling, backend integration, and debugging
- Strengthened **problem-solving**, **team collaboration**, **adaptability**, and **time management** while completing **1 project-based development tasks**: module implementation, debugging, and feature improvement
